DETAILED ACTION

Claims 6-8, 10, 16-17, 24-26 were canceled in a previous amendment.

Allowable Subject Matter

Claims 1-5, 9, 11-15, 18-23, 27 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: With respect to independent claims 1, 4, 9, 20, the prior art of record does not explicitly disclose nor teach a method and apparatus for inspecting portions of a substrate, comprising focusing N multi-pixel incident electron beams onto N beam spots on the substrate, wherein multiple pixels are included within each beam spot, directing electrons emitted from the N beam spots through the N beam separators in a second direction so as to separate the emitted electrons from the incident beams; and detecting the emitted electrons using N multi-pixel detector arrays, wherein each detector array detects multiple pixels from one of the beam spots in a parallel manner, in combination with the remaining aspects of the claims. Since this aspect is neither disclosed nor taught in the prior art of record, independent claims 1, 4, 9, 20, and dependent claims 2-3, 11-15, 18-23, 27, which also incorporate this aspect, are deemed allowable over the prior art of record.

In addition, the applicant's arguments, filed 5/11/06 are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
